Arrival in Baltra - Santa Cruz Island + Visit to the Turtle Reserve and lava tunnels.

You can only reach the Galapagos Islands by plane (airfare not included) from Quito or Guayaquil. At the Baltra airport (Galapagos), our guide will be waiting for you to start the tour. From the airport we will board the buses (the only means of transportation for this journey) to the Itabaca canal (approximately 15 min). In Itabaca we will take the public barge to cross the canal (similar to a ferry), the trip lasts approximately 10 minutes. Then we will take the transport (double cabin vans or buses) to the giant tortoise reserve that is on the way to enter the city of Santa Cruz.

We begin a tour of the natural habitat of the Giant Tortoises, also known as Las Galapagos. The site is inhabited by native birds such as the Pájaro Brujo and Galapagos finches. Escalecías and matazarnos (endemic vegetation) make the upper part an essential place to visit to interact with the natural environment of the islands. After this visit, we return to Puerto Ayora to have lunch.
